FedCert Suite Cloud-Based Software Features

Our newest version of FedCert Suite builds on 11+ years of experience in providing you software that reduces the risk of calculating VINs for your vehicles as well as maintaining compliance with the ever-changing government requirements and documentation. Additionally, this version addresses many of the items our customers found challenging in previous releases.

FedCert Suite can be accessed 24 hours a day, 7 days a week at https://live.fedcertsuite.com.

We encourage you to utilize the DEMO within the program before purchasing. The demo gives you the opportunity to experience how FedCert Suite can save you time and money for less than a $1/day.

The program does all of the things you'd expect it to do:
- Calculates VINs
- Fills out required labels and forms
- Requires no special printer (use standard laser printer)

To this list, we've added these features:
- No Maintenance Contracts. You have full support from day one until your subscription ends.
- No Installations to do. Instant Access!
- No backups to take. We have that handled!
- Works on Windows or Mac; Chrome, Firefox, or Internet Explorer.
- Available anywhere the internet can be accessed.
- Can be used on multiple monitors, screens – you can have vehicles, sales, and customer's screens up at the same time.
- No computer crashes or servers to worry about.
- No IT consultant to hire.
- Unlimited users per WMI.
- No adjustments needed for printing.

After your purchase is complete, you'll need the labels to keep you compliant.

Country	Description	Part ID
